

Freelance Proposal Help

How Using This 1 Simple Strategy  
Enabled Us to 4X Our Prices & Discover  
How Much Clients Would Pay

**Worksheet**

# Pricing Problem #1

Severely under pricing your work on some projects and individual services

## Solution

Simply add 10%- 15% to your hourly rate and on every new flat fee project you write a proposal for.

## Pricing Problem #2

You don't know or have anyway to discover the highest price clients are willing to pay you to solve a particular problem for them

### Solution

Continue to raise your prices in this way until you get client push back. Which means you'll be in the sweet spot for what clients and the market want to pay you for that particular service or project type.

**TAKE  
ACTION!**

Implement this in your  
business today & close  
bigger projects

# BONUS
